Bobcats Whip Elba 41 to 7 Monday

The Baby Bobcats of Opp High School journeyed here Monday night to beat a comparatively weak Elba Bee Team 41-7 in Elba Stadium. Opp scored on a sustained drive from their 30-yard line in the opening minutes of the first quarter.

The visitors ran around the ends, drove up the middle and passed over the Elba defense for a total of more than 200 yards.

The only Elba score came in the last quarter when Halftom Tom Dyess circled left end from the 10. The extra point came when Mickey McCollough, who had been hurt,

reliedly shifted from Guard to Quarterback slammed over on quarterback sneak.

Gist the Clipper Reading Habit

FIRE HITS HOME

Fire resulted in slight damage at the home of Nehemiah Bullard, negro, in Mulberry Heights, Monday about 7:45 due to an over-heated fire. The Elba Fire Department was called, but the flames were extinguished by tearing away a part of the ceiling and using a small hose.

ELBA TAKES 4TH LOSS; TO PLAY GENEVA FRIDAY

The Elba High Tigers took their fourth losing of the season Friday night when they lost at Samson 20-7 and will play here tomorrow against Geneva in quest of their season's second victory.

Elba played as well as Samson and scored the first tally but Samson turned every error to good advantage and scored in every quarter except the final. Jimmy Wise made the first touchdown from the Samson 3 yard line on a handoff from the quarterback, Halbrook Earl McCollough made the conversion, and Elba led 7-0. However, the Samson team called once in the first quarter and once in the second and led at half-time by a score of 13-7. They came back in the third quarter to add the clincher and another extra point.

Wise Leads

Elba gained 100 yards rushing. The leading ground gainer was Jimmy Wise. In the first quarter, he carried the ball for 15 yards, completing 7 passes out of 20. The longest aerial was thrown to Griffin, covering 45 yards, and setting up the first score of the game.

Defensive standouts for Elba were Linebackers Billy Joe Brunson and Ricky Boswell. Guard Charles Taylor, and End Harvey Griffin. The defensive play was fairly good except in the off-tackle line where Samson gained most yards.

Fumbles Costly

As usual, fumbles hurt the Elba team. A miscue in the second quarter cost Elba another touchdown and one in the first set up the first tally for Samson. The pass defense was working well, allowing very few completions of Samson aerials.

One of the turning points in the game was the injury to Quarterback Carl Nelson. This cut down the efficiency of the Elba offense by forcing the use of the spread formation, because of lack of experience at quarterback position.

Score by quarters: Elba 7, 0, 0, Samson 6, 7, 7, 0.

SUGAR CANE ON INCREASE FOR STATE FARMERS

AUBURN—There's more sugar in sight for Alabamians with a sweet-tooth. Sugar cane acreage should go up from the low place it has held in the last few years.

According to API Extension Agronomist O. S. Andrews, recent sugar cane crops totaled only about 5000 acres. This compares with 30,000 acres of about 18 years ago.

Andrews explained that it was chiefly the work of diseases and bad production practices plus high labor requirements that wiped out these 25,000 acres. However, an encouraging note from the specialist reminds growers that use of disease-resistant varieties and good planting procedures may reclaim some of the lost sugar cane land in the state.

Two of the troublesome diseases, mosaic and red rot, can be eliminated by use of new sugar cane varieties, C. P. 116 and C. P. 36-111, continuously on the same land, while old varieties must be rotated with other crops. And sugar production from both new canes has consistently been above 500 gallons per acre.

Farmers wishing to grow cane should get their crops in the ground now, said Andrews. Plant cane in rows four and one half feet apart at double rate, staggering the unions of stalks in each double row.

Mr. Folsom's Niece Gets Appointment

Miss Jo Ann Richards, of Pensacola, has been appointed as Child-Welfare-Worker in Training with the Covington County Department of Penitentiaries and Security, at Andalusia.

Miss Richards' father, H. W. Richards, is a native of Opp. Her mother, the former Gladys Alfred, is a native of Elba and her aunt, Mrs. Evelyn Volsen of Elba.

Recently of Pensacola, Miss Richards attended Louisiana Polytechnic Institute at Ruston, La., where she majored in Sociology.

Miss Richards was reared in Pensacola and attended Stephens College in Columbia, Mo., and Louisiana Polytechnic Institute at Ruston, La., where she majored in Sociology.

Ax Wielder Held, Foe In Hospital

George Patty, 50, worker on the Elba garbage truck, is in the Opp Hospital with a fractured skull and L. V. Russell, 50, colored, who lives near the intersection of Troy and Brantley roads, is in Coffee County jail at Elba charged with wielding an ax on Patty Sunday about 6 p.m.

Sheriff Tillman said investigation showed an argument resulted when Russell went to Patty's home in Mulberry Heights and that later, after Russell returned home, Patty went to Russell's home. Russell struck him on the forehead with the blunt side of a one-blade ax.

ABOUT PEOPLE AND THINGS

By C. B. McDowell

When I venture into Smith Brothers' Store in West Elba, I know I am running a risk of being the "root" of one of Drayden Smith's endless jokes. The latest one on which "I" was:

He asked me if I had gotten acquainted with the doctor who had come to town on account of Elba's prospects of having a new hospital? I explained that I had been sick recently and had not been around much and had not met the doctor. I asked his name and where he was from.

Mr. Smith replied that the person in question had a glass neck and was named "Dr. Pepper" and was not a real doctor.

Mr. Smith replied that the person in question had a glass neck and was named "Dr. Pepper" and was not a real doctor.

Mr. Smith replied that the person in question had a glass neck and was named "Dr. Pepper" and was not a real doctor.

CITY THRONGED FOR FIRST ELBA FALL FESTIVAL

Elba was a mecca Saturday for thousands of people from nearby southeastern Alabama as the First Annual Fall Festival provided interest and entertainment for all.

The day dawned clear and cool as all roads leading to Elba were lined with hundreds of automobiles and soon downtown parking space was crowded.

Parade Rolls

Promptly at 9:30 a.m. the parade began to roll on its way down the street lined with onlookers. Bands played, majorettes performed, and all kinds of floats and floats drew exclamations of awe.

"That's the best yet," said the spectators, "these and other exclamations of delight from spectators attested to the fact that each entry had represented hours and dollars of effort to make each and every one the best."

Open House

Immediately after the parade Dorsey Trailers and the Live-Stock Market were thronged with hundreds of spectators bent upon seeing how those giant highway vans are made in the world's third largest trailer factory.

The Public Square was thronged at noon where barbecue stands had been set up and where prizes were given away in a drawing with Mrs. Murrell, the Miss Elba of 1957 in charge.

Converge on Airport

After noon the road leading to the airport was clogged with automobiles filled with people to see the display of helicopters, fixed wing planes and modern weapons of warfare.

The scene then shifted to the Public Square where there was great amusement in such games as catching the greased pig.

After sundown the fireworks display started in the Elba High School football field which could be viewed blocks away, many people watched from the windows of their homes and a crowd gathered at the field to see the colorful bursts in the sky.

There were many individual stories attesting to the fact that everyone had a good time, of which is the one about a car full of tourists who stopped at a local filling station just in time to hear the parade. They stayed to see the parade and then stayed all night.

Cold Nights Make Early Season Call

Frosting weather made an unusually early-in-the-season call on Coffee County and southern Alabama this week.

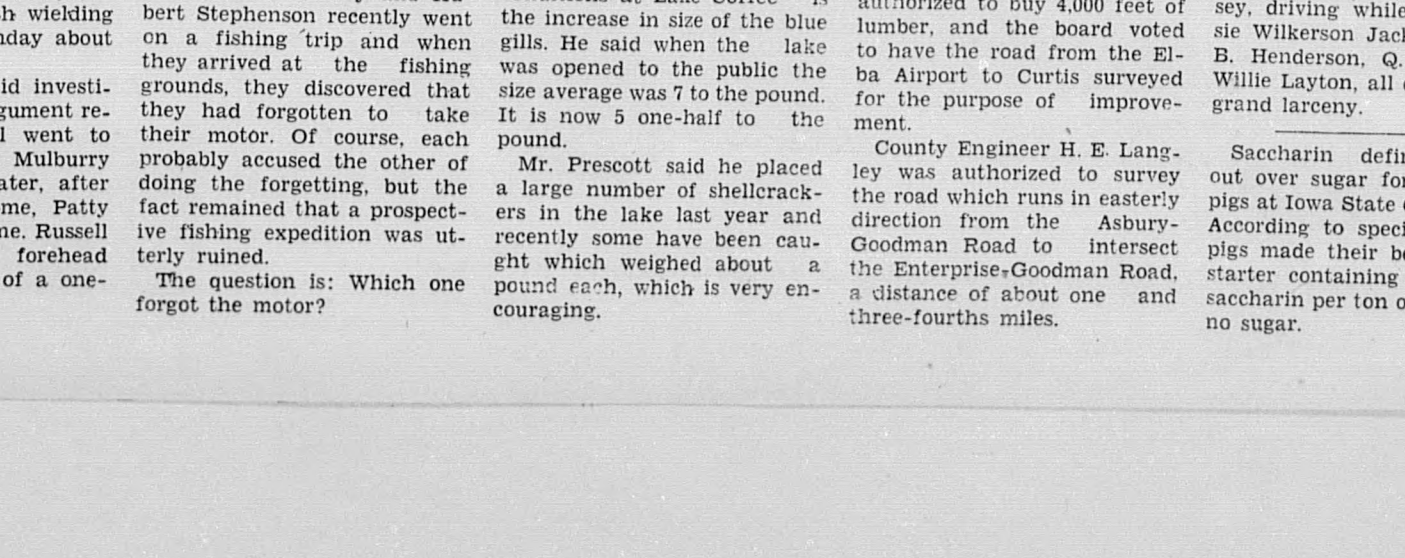

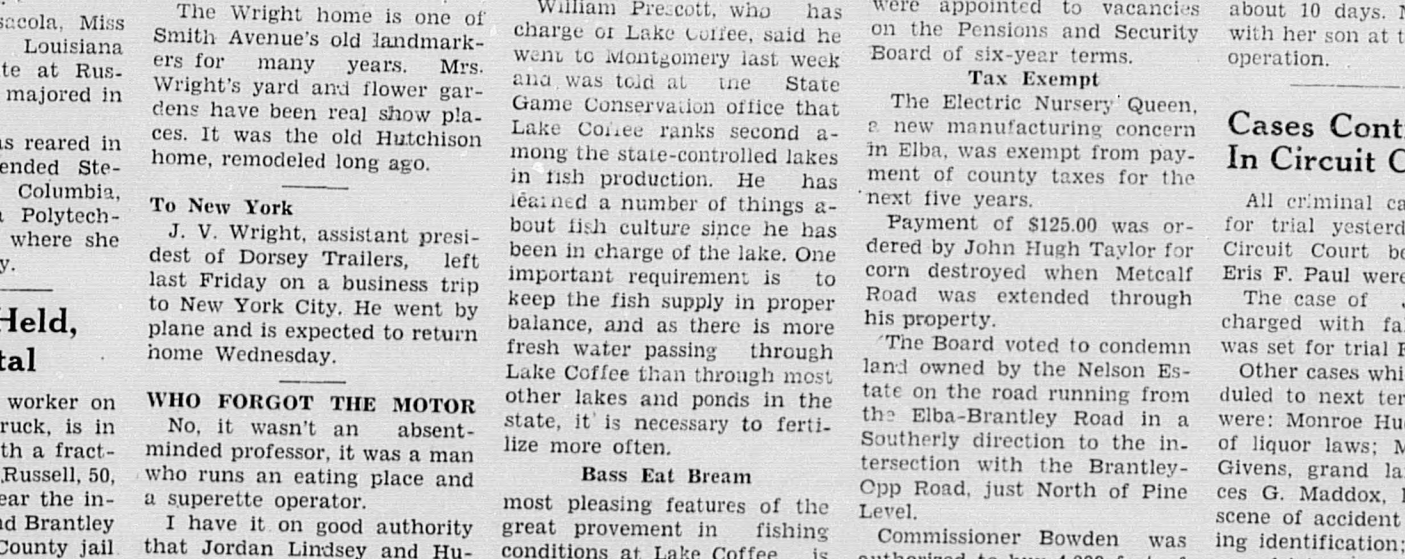

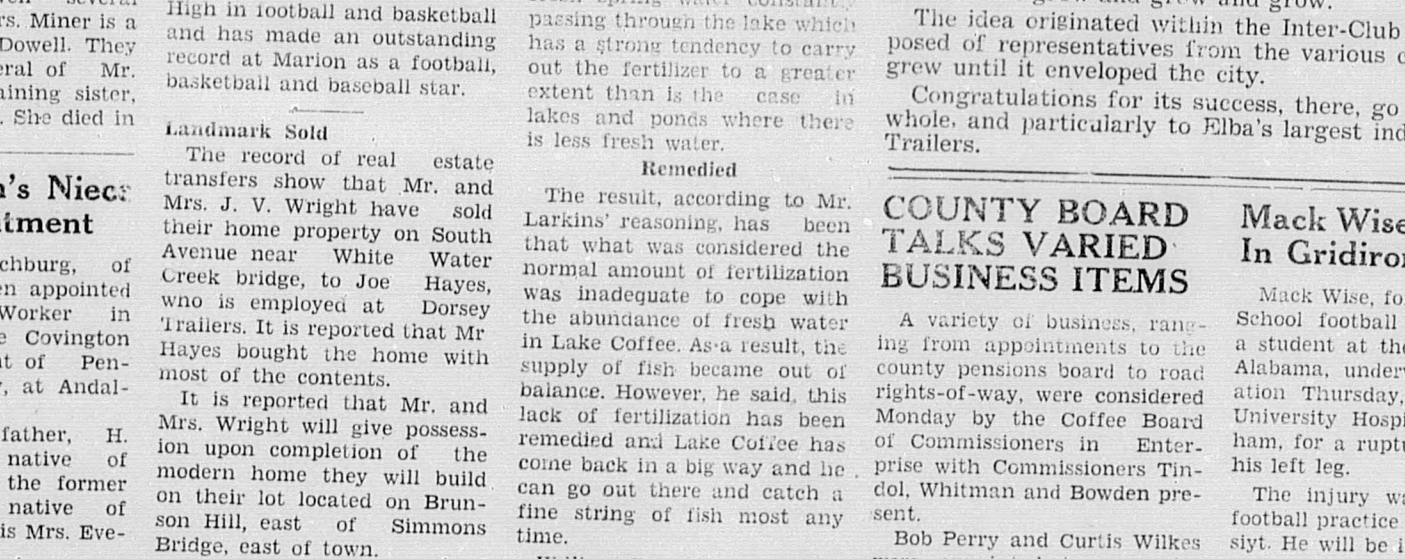

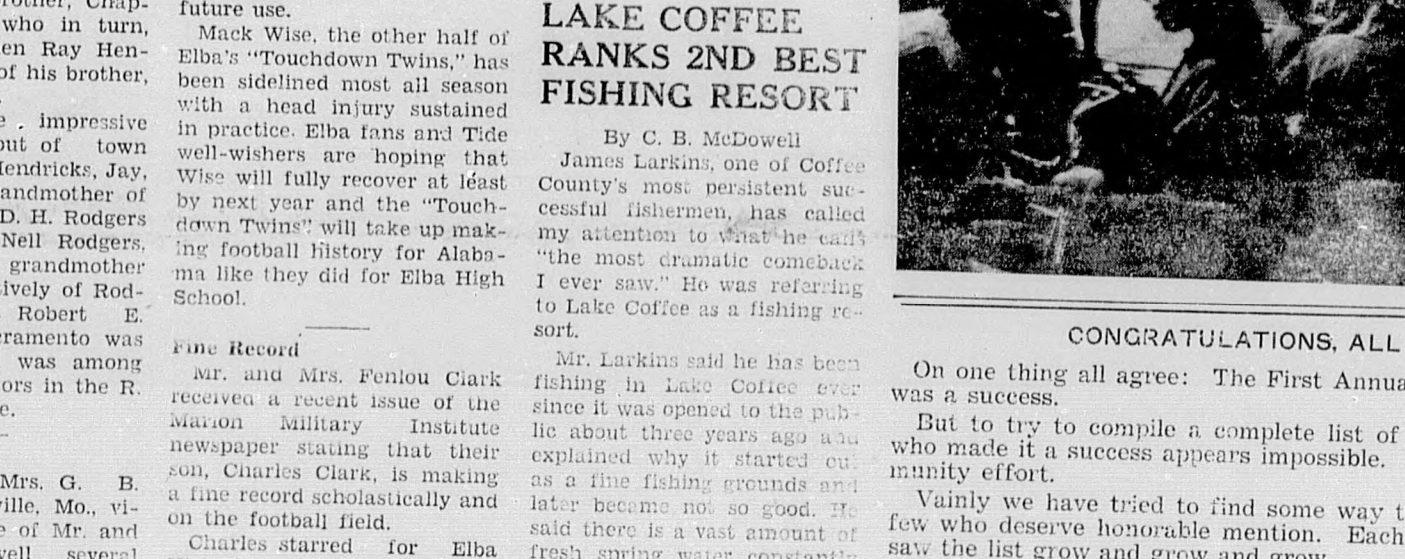

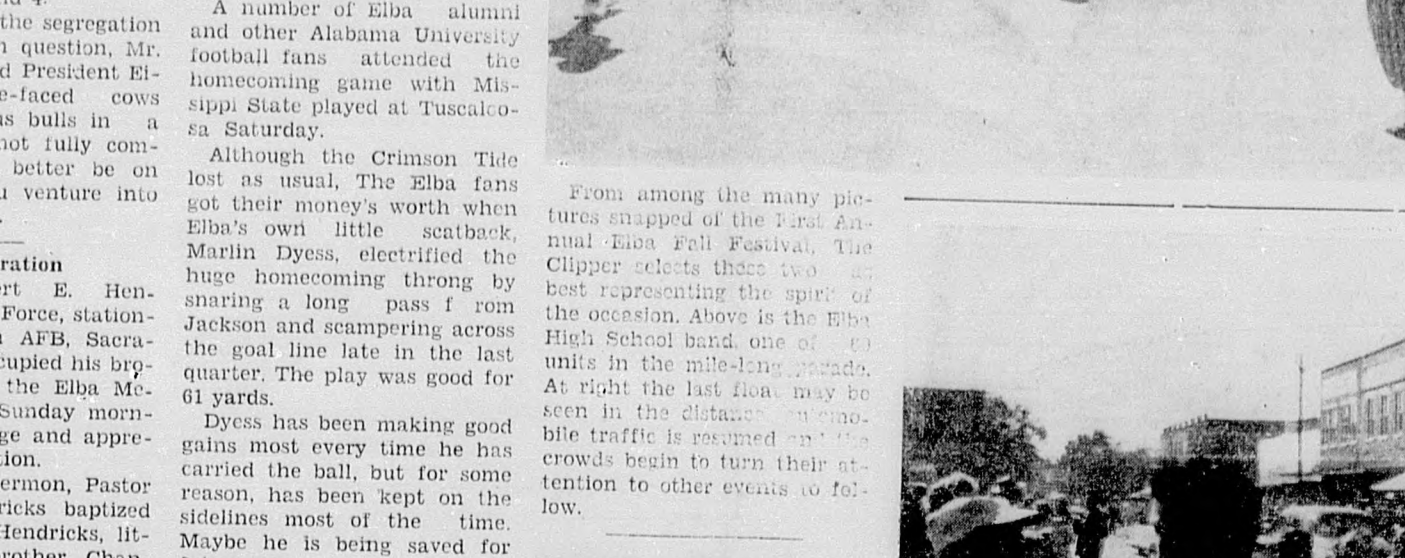

There were frosts Saturday night and successive nights while the temperature fell below the freezing point both Sunday and Monday nights, J. Drayden Smith, who is an unofficial weather statistician, said this is the first time since 1948 that cold weather hit here so early in the season, and recalled that in 1910 the weather was equally cold.

The cold was general throughout the South, Birmingham had a low of 26 degrees Sunday morning which was the coldest ever recorded in Birmingham so early in the year.

FTA TO MEET

The Elba Chapter of F. T. A. will meet in the auditorium of Elba High School Tuesday night, November 7, at 7:15 p.m. An interesting program has been planned and all parents and friends are invited to attend.

Getting rid of the dampness in the room when cleaning mildewed things is essential. If you can't get rid of the dampness by airing, heat the house for a short time. Then open doors and windows to let out warm air that has taken up the extra moisture.

Farm News and Reports

FEED EXPENSES CAN BE REDUCED BY POULTRYMEN

AUBURN—Chickens need well balanced diets to put on those pounds where they count. At the same time, most poultry producers need to cut down on feed expense. These costs take a big chunk out of gross returns, explains API Extension Poultryman Hoyt M. Warren; reduction in costs results in greater net profits for producers.

There are several ways to try to cut feed costs and still give birds an adequate diet, said Warren. The cheapest method of getting a good poultry ration depends entirely upon conditions on or around a particular farm. Some producers may find that bulk delivery is the answer. Others may profit by custom grinding and mixing, while still another group might reduce costs by owning their own grinding and mixing outfit.

In normal conditions home-grown grains are the cheapest source of feeds. Where feed grains are to be purchased rather than home-grown, it's possible to save on costs by buying

during the harvesting season when prices are lower and then storing the grain on the farm. Home-mixed poultry feeds have not been used by many producers because of the tedious job of mixing ingredients in the right proportions to provide a good mash. Warren pointed out that commercial manufacturers have a concentrate feed available which supplies all the ingredients needed for poultry feed except grain, which can be grown on the farm or purchased. This makes it possible for the producer to get a good ration by adding the needed grain.

A poultryman may find that grinding and mixing facilities on the farm enable him to take advantage of low-cost grains. Each producer, however, needs to consider such an investment in light of his own situation.

HORSE SHOW

Alabama will stage its first big time national horse show next month with the Southern Championship of America scheduled in the State Coliseum, Montgomery, November 14-16.

Get the Clipper Reading Habit

REFERENDUM ON COTTON TO BE HELD DEC. 10

AUBURN—A referendum on cotton marketing quotas for the 1958 crop will be decided upon Dec. 10. API Extension Agronomist Jasper Terragan said this week that all Alabama farmers having cotton allotments are eligible to vote. Polls will be set up at the regular ASC polling places.

In order for quotas to be in effect, two-thirds of the farmers voting in the referendum must approve them. If this percentage OK's marketing quotas, the 1958 cotton crop will be supported at the highest level of parity.

Under the marketing quota program, however, any grower who plants more than his allotment will have to pay a penalty of 50 percent of parity on the excess acreage. Also, he will be ineligible for price supports on any of his cotton.

If voters decide against the quotas, cotton will be supported at only 50 percent of parity. Overplanting in this case would not result in cash, but growers seeding more than the al-

NEW SUPERIOR MUSCADINE IS NOW AVAILABLE

AUBURN—Southern farmers with a taste for muscadine grapes may soon be able to secure plants of a new and superior variety.

This grape, the Dearing, is a high quality, self-fertile variety which has been developed for planting in the Southern region of the U. S.

Indicating a few of the good points about the grape, API Extension Horticulturist John Bagby said this week that the Dearing differs from other muscadine varieties in that one vine can produce fruit. The specialist explained that this makes interplanting with male vines unnecessary.

Until the release of several perfect flowered varieties a few years ago, all muscadines bore flowers of one sex only. The Dearing is the first perfect flowered muscadine with flavor and quality to equal the older one sex varieties.

Dearing vines should be available at commercial nurseries this fall and winter, according to Bagby, planted in experimental nur-

ASC TO GATHER COUNTY'S DATA ON CORN QUOTA

Corn growers in Coffee County were reminded today that with 1958 the county Agricultural Station and Conservation Office will be visiting their farms soon, gathering data on corn acreage and production. Accurate information on the farm's past production history will make it possible to establish fair and equitable farm acreage allotments for next year's corn crop.

Lester Gunter, chairman of the county ASC Committee, points out that information on corn acreage and production

Produced by North Carolina and U. S. Department of Agriculture plant breeders, the Dearing is sweet and tasty and should be an excellent grape for home vineyards. It is also recommended for use as a pollinizer of commercial one-sex varieties.

As required by law, commercial corn-producing areas are selected on the basis of (1) those having an average production of corn, excluding corn used as silage, during the preceding 10 years (1948-57) after adjustments for abnormal conditions, of 450 bushels or more per farm and 4 bushels or more per acre of farmland in the county, and (2) those counties bordering on the commercial corn area in which there is a minor civil division likely to produce the above amounts of corn in 1958.

Coffee County has been named as one of the 932 counties in 26 States designated as the commercial corn-producing area for 1958.

How Selected

As required by law, commercial corn-producing areas are selected on the basis of (1) those having an average production of corn, excluding corn used as silage, during the preceding 10 years (1948-57) after adjustments for abnormal conditions, of 450 bushels or more per farm and 4 bushels or more per acre of farmland in the county, and (2) those counties bordering on the commercial corn area in which there is a minor civil division likely to produce the above amounts of corn in 1958.

This formula indicates that

the 894 counties designated in the 1957 area are included in 1958 plus 38 additional counties.

Price support for corn will be available at a mandatory minimum level of support for those growers who comply with acreage allotments in the commercial area, and at a lower level of support for all growers in the non-commercial area. The Acreage Reserve program of the Soil Bank will be in effect for corn in the commercial area in 1958. The amount of the 1958 national corn acreage allotment will be announced later.

Bulletin on Pork Is Now Available

A new Extension bulletin on killing hogs and making pork is now available to Alabama farm folks, just in time for the hog-killing season.

Prepared by API Extension Swine Specialist G. B. Phillips and Dew Turney, associate professor of animal husbandry at API, the bulletin, Extension Circular 255, "Making Pork Country-Style" can be secured through any county agent.

58 FORD
COMING
NOV. 7

Nothing newer

AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and passed at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Finis country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey: and the 58 Ford passed the great white lacework palaces of the Sultan along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heart of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoon-rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of South-east Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford . . . has been proved and approved around the world. A natural question arises: Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

BLEED THROUGH

Through the Keyhole

BY MRS. ROBERT CANNON

THE SOFT SCENT of pink roses filled the air and tall white gladioli in an artistic arrangement added a note of elegance to the room. Three tables were set with the hostesses hand-painted china and a sense of gaiety prevailed over all. Thought that everyone present looked exceptionally pretty. Betty Vaughan was wearing a soft wool dress of pink satin and pearls. Sammie Morrow was quite exotic in black crepe with a deep neckline. Genevieve Kendrick chose a suit of pale green with a gently pleated skirt. Jean Vaughan wore a dress of her own creating and was the envy of all of us. Her dress was of warm brown wool trimmed with a leopard skin collar.

The evening was an oasis of pleasure in a busy world, and we all left hoping that Elizabeth Johnson would ask us back again soon.

TELEVISION FANS saw the meeting of the Grand Chapter of the Eastern Star last week in Montgomery when it was televised. Thought we might get a glimpse of our ladies who attended, but didn't. Mrs. C. O. Miller, Mrs. Henry C. Clark and

Mrs. Fox Brubaker represented the Elba Eastern Star Chapter and did a grand job of it, we hear.

NEWS ITEMS: The Lamar Rainers, Sr., are happy to have grounds "Vandy" spending a week with them. Vandy's parents, Pat and "Van" Vanbarium are househunting at Elba Field. While they are there, they will occupy the young man will visit here and attend school with the friends he made last year during a longer visit.

Mike Corbett, son of the former Corbitts is at home after a stay in the hospital last week. We were glad to hear that he is better and hope he'll soon be feeling like "voodoo" on his nimble collection, which is really a wonderful sight.

The INTER-CLUB COUNCIL really deserves a round of applause for the successful Fall Festival last Saturday. All of us had a wonderful time and it is to be hoped that this event will continue each year.

The cold winds could not drive the crowds away from the football field where we gathered to watch a magnificent game.

Smoking Says: FIRE IN THE WOODS SETS THE STAGE FOR SOLICITATION. "AND LOOKS LIKE A GOOD FISH."

Was lots of fun to see some from surrounding towns. From Troy Dr. C. B. Smith and Dean Boyd of the College. Miss Estelle McCollough, Miss Vera Law, and Miss Ennie Davison all of whom had been my teachers, also many others.

From Elba we chatted with Mr. Casey, Sybil Taylor, Peggy

NOTE SIZE OF PRIZE: Mrs. George L. Oakley of Columbia, whose thin-pulled peanut brittle won the sweepstakes prize at the National Peanut Festival peanut recipe contest, receives her reward—a big Western-Holly "Kook-Center," complete with built-in range, double-oven, refrigerator, ventilating fan and fluorescent lighting. Prizes totaling \$1,000 in value were offered by the Southeast Alabama Gas District, whose general manager, R. J. Smith, is shown here with Mrs. Oakley. Fifty-dollar first prizes and \$5-dollar second prizes went to first- and second-place winners in each of four recipe divisions, and a fifty-dollar long-distance prize was won by an entry from Hong Kong.

cent fireworks display. Camille Johnson had several youngsters clustered around her; Patsy and Rowland Ford had a very cute little boy to show all the sights to; Becky Morrow was comparing notes with other young mothers; Mary Ann Riley and Emma Jean Callaway, while Judy Pinckard chased a curly-headed toddler around.

We were sorry that the teachers meeting caused us to miss the morning activities. But what we were able to see caused us to offer a verbal tip of the hat to hard working

MANY DISEASED PINES CAN BE MONEY-MAKERS

AUBURN—Many loblolly pine trees damaged by fusiform rust cankers can still be money-makers.

This good news, of interest to farmers with established pine stands, was pointed out here today by I. R. Martin, API Extension forester.

Many timber areas over the state are heavily infested with the disease, said the specialist, and a few years ago farmers called trees with a crown-rust canker from the timber plot.

This wasn't effective, though, because fusiform rust spores

travel long distance and infect large acreages when they leave the oak tree, their alternate host.

Because the owner removed each tree infested with rust from the stand to prevent spreading of the disease, many pine stands were ruined, said Martin.

Heavy thinnings may leave many unproductive openings and slow-growing, poorly formed trees in the stand instead of vigorous cankered ones.

Research results, completed over a 10 year period indicate that trees whose trunks were only half infested grew just as rapidly and suffered no more windthrow than solid, healthy trees.

So if the canker, which causes orange colored swellings in the trees during the spring, doesn't cover one-half of the trunk circumference, the tree is a good risk for five or ten more years, concluded the forester.

PERMISSION DROP
Alabama's old age pensioners dropped during September. Payments were made to 104,818 old age pensioners in September, compared with 106,006 the previous month.

Commissioner reported, or a drop of 1,185.

From Our Early Files

22 YEARS AGO

Uncle "Joe" Young has recently returned from a four-day trip to Clifton, He and Mrs. Young, his sister, Mrs. Della Wise of Lookliary, and Mrs. Wicks' daughter, Myrtle, visited in the home of another of Mrs. Wicks' daughters, Mrs. Grover Feeble.

Mrs. Manie B. Hill of Andalusia, new director of public welfare in Coffee County, arrived the first of the week and has already begun her work here. Mrs. Hill comes to Elba highly recommended and has made special preparation for her new job.

Beginning July 1, Elba's mail schedule will be entirely changed. Two new routes will begin service. One route will leave Troy at 8:15 a.m. and go

to Ozark via Jack, Elba, New Brockton, Enterprise, and Daleville. The other route will leave Elba at 2:45 a.m. for Ozark.

At the first meeting of the Elba Chamber of Commerce for this year, Prof. James C. Dixon, vice president for the past year, was elected to the presidency. Other officers elected were: W. M. Ringdorf, vice president; J. V. Wright, secretary-treasurer; J. F. Brunson, assistant secretary-treasurer.

The Coffee County Health Department has opened and will maintain an office in the Court House in Elba. The office will be open Saturday of each week from 8:30 a.m. until 3 p.m. to administer typhoid vaccine, small pox, diphtheria, making hookworm examinations and treatment, and various other public health measures.

Dr. H. T. Donovan, County Health Officer, will have charge of the office and has asked the people of Coffee County to come and ask about the many health advantages that can be secured through the county health department.

A crew of workmen have been preparing the right-of-way for the Elba-Branley highway paving project. Graduating and doing the other necessary preliminary construction work is expected to begin within the near future.

Refreshments were served in the Home Economics Department with the Project Committee as hosts.

According to University of Tennessee horticulturists, selection of sweet potato seed stock should be made in the fall. During harvest time potatoes show color, smoothness, and freedom from disease better than at other seasons.

Water shortage of poor-water problem face one-fourth of today's population, reports the Soil Conservation Service of the U. S. Department of Agriculture.

According to the U. S. Department of Agriculture, about one-fourth of the total U. S. cotton crop was harvested mechanically.

NEW BROCKTON FHA INITIATES NEW MEMBERS

At an impressive ceremony, 33 new members were initiated into the New Brockton Chapter of Future Homemakers of America at its first, monthly meeting October 1, in the school auditorium.

On the stage was a table covered with a white cloth on which were eight lighted candles representing the eight purposes of the organization. The centerpiece was a bowl of red roses, the flower of the organization.

Soft music played as each new member walked across the stage and was presented red and white ribbons, the colors of the organization, by the President, Annette Lambert.

New members initiated were: Carol Adkinson, Ida Mae Andrews, Patsy Bass, Shirley Ann Cole, Julia Ann Unaway, Sylvia Faircloth, Marie Griswold, Effie Lee Hird, Patricia Hynes, Vernell Hines, Poslan Hays, Linda Homady, Bobbie Kelley, Janice Kelley, Roseley Lindsey, Patricia Locklar, Janice Lunsford, Julia Moore, Patricia Nicholson, Pamela O'Neil, Tommie Parker, Linda Ramsey, Sara Rude, Judy Sawyer, Frances Schramm, Ann Shackelford, Bobbie Smith, Lanelle Smith, Judy Spigner, June Tate, Wanda Tindol, Patricia Wamble, and Martha Wilkes.

Also included on the program was a devotional by Martha Wells, a duet by Patricia Hays and Judy Sawyer, and a report of the activities of the State FHA Convention by Nina Wilson, Bonita Storey, and Sandra Sawyer.

Following the meeting refreshments were served.

We're Proud To Be Working With...

There'll be great competition for our young people—leaders of the future. Rural electric co-ops will need their enthusiasm and know-how to face the mounting challenges and threats to our hard-earned progress.

We're proud to be working with our youth and their fine organizations, showing them that ours is more than "just another business." Members of our co-op own, operate and reap the benefits of a truly democratic partnership.

We confer this heritage on our youth with confidence. The future of our rural electric co-op looks bright—because of our rural youth.
